

MUTANTS & MASTERMINDS™ ROLEPLAYING GAME

ERRATA & CORRECTIONS

UPDATED: 03/01/03

P. 9: IMPORTANT TERMS

Hero Points: Change "characters" to "players." Characters don't spend Hero Points, players do.

stack: Add "(or penalty)" after the word "bonus" in the last sentence.

P. 10–17: HERO ARCHETYPES

See the **Revised Hero Archetypes** file for updates.

P. 21

Insert the following sidebar at the end of this page:

OPTION: REDUCED SKILL COSTS

Mutants & Masterminds characters generally rely on their extraordinary ability scores (particularly super-abilities) to provide skill bonuses. Some Gamemasters, however, may wish to run a more skill-heavy game with a focus on less superhuman characters. In this case, the cost of skills should be reduced, with one power point granting a character two or three skill ranks rather than just one.

P. 25: INTELLIGENCE

Delete the words "a lot of skills, particularly" from the second sentence.

P. 32: DEMOLITIONS

Remove the words "and disarm" from the skill description.

Add the following to Special: A character with 5 or more ranks in Demolitions gets a +2 bonus on Disable Device checks to disarm explosive devices.

P. 36: INTIMIDATE

Add "or STR" to the parenthesis after the skill name. Super-strong characters should be pretty darn intimidating.

P. 45: EVASION

Change to read: "When making a Damage save, you can choose to use your Reflex save bonus in place of your Damage save bonus, avoiding an attack through agility and defensive maneuvering rather than sheer toughness. You cannot evade the damage of area attacks and the GM may rule that there are certain other attacks you cannot evade. You cannot use Evasion if you are denied your dodge bonus to Defense for any reason."

P. 47: PHOTOGRAPHIC MEMORY

Change the Prerequisite to Int 15+ or Super-Intelligence.

P. 48: RAPID HEALING

Change the +2 bonus to a +1 bonus. Add the following at the end of the **Special** section: "So you recover your Regeneration power rank plus one in hits per minute if you have Rapid Healing."

P. 48: SKILL FOCUS

Add the **Prerequisite:** Ranks in the associated skill.

P. 49: TALENTED

Add the **Prerequisite:** Ranks in associated skills.
Remove: "13+ in the skills' key abilities."

P. 50: BLINDSIGHT

Add "or Super-Senses" to the **Prerequisites**.

P. 52: PENETRATING ATTACK

Replace its description with the following:

One of your attacks or powers is particularly effective in overcoming resistance.

Benefit: Choose an attack or power. When the target attempts to resist that attack or power, reduce any Protection the target has by 2. Once Protection is reduced to 0, any remaining reduction is applied to the target's saving throw bonus, which cannot be reduced below +0.

Special: You can take this feat multiple times. Its effects stack (if applied to the same attack or power) or apply to a different attack or power. Each application of this feat is considered a +2 increase in the attack or power's rank for purposes of stacking limits (see p. 58). Defenses with the Impervious extra ignore the effects of this feat.

P. 53: SCENT

Add "or Super-Senses" to the **Prerequisites**.

TRUE SIGHT

Add "or Super-Senses" to the **Prerequisites**.

P. 56: POWER COSTS

Under "Extras" change the second sentence of the second paragraph to read: "For example, if Sean adds the Protection extra to Protonik's Super-Strength (already at rank 10), he must spend 10 power points, one for each rank Protonik already has, before increasing Protonik's Super-Strength another rank (which now costs 5 points per rank because of the Protection extra).

Change the fourth sentence of the third paragraph to read: "Growth (with a cost of 6 points per rank) increases the cost of Shapeshift by 5 points per rank as an extra (Growth's normal cost, minus 1).

P. 61: ABSORPTION

At the end of the first paragraph, add: "This power is considered a Protection bonus for stacking purposes."

In the second paragraph change the word "absorb" to "store" and insert "absorbed" before the first use of "damage bonus."

In the third paragraph, change "the absorbed energy" to "stored energy."

P. 61: ALTERNATE FORM

Under **Energy** form, drop the words "If you prefer" from the beginning of the second sentence, so it starts "You have an Energy Field..."

Under **Liquid** form, change "Amazing Save (Damage) (below)" to "Protection (p. 79)"

Under **Semisolid** form, add "like the Strike power (p. 84)" to the end of the last sentence.

P. 63: BOOST

Change the third sentence to: "You gain bonus ranks in that attribute equal to your Boost power rank. For ability scores these are ranks in the appropriate super-ability."

P. 65: DENSITY CONTROL

Change cost to 6.

P. 68: DUPLICATION

In the last sentence of the first paragraph on this page, change "You duplications" to "Your duplicates." Delete the word "usually" from the first sentence of the second paragraph.

Under the **Horde** extra, change "feat" to "extra."

P. 68: ELEMENT CONTROL

Change Elemental Blast power stunt to an extra.

P. 69: ENERGY CONTROL

Change the Disintegration extra under **Sonic** and **Vibration** to a power stunt.

Change Energy Blast power stunt to an extra.

Replace the following Energy Type descriptions with the new text below.

Electricity: You can conduct electricity with a Damage bonus up to your power rank harmlessly through your body and any conductive material (such as water or metal) that you are touching. Anyone touching you or the material (up to Normal range) must make a Damage save to avoid the electricity's Damage bonus.

Fire: You can cause flammable objects (paper, wood, etc.) within range to burst into flames. Doing so requires a ranged attack roll and inflicts damage equal to your power rank. You also can cause existing flames to move as you direct within range, causing them to "leap" up to your rank times 10 feet.

Kinetic: You can generate and control kinetic energy, the force of motion. You can move objects at a distance like Telekinesis at your power rank.

Radiation: You can generate and control radiation. Note that this is comic book radiation, visible as a glowing light with the effects of intense light and heat. Your radiation doesn't cause radiation sickness, cancer, or genetic mutations like real-world radiation. You can surround yourself with an Energy Field (p. 70) of radiation at your power rank.

P. 72: FORCE FIELD

Change "a Damage save bonus" in the first sentence to "Protection." Add: "Choose one of the below extras as a free power enhancement."

Under **Mental Shield** change the text to read: "Your force field provides Mental Protection (p. 75) equal to its rank."

GADGETS

Change this power's description to read as follows:

You have the ability to come up with the right device for any situation. you can allocate your Gadgets ranks to any power with a base cost of 2 or fewer power points simply by taking a half action and spending a Hero Point. You cannot apply any flaws to this power to reduce its cost. You may apply extras, but this divides your power ranks by the number of extras, plus one. So one extra divides your ranks in half, two extras by three, and do forth. Any fractional ranks are dropped. If this reduces your power rank below 1, you cannot create a gadget with that power. You

may divide your power ranks between multiple powers as desired, but each sperate power requires a half action (but only one hero point, regardless of how many powers the Gadgets ranks are allocated to).

Example: Gimmick has a utility purse that holds a variety of crime-fighting devices (Gadgets +10). With a half action and a Hero Point, Gimmick can pull virtually any sort of device from her utility purse, from acid to eat through metal bars (Corrosion) to smoke grenades (Obscure) or shark repellent (Mind Control).

Like all variable effects (see p. 94), the Gamemaster should carefully monitor and control the use of Gadgets, and has the right to veto a particular use of a gadget if it is inappropriate for the series.

Note that Gadgets includes the Device flaw in its cost. Individual Gadgets, while still devices, do not receive a reduction in cost.

GROWTH

Add the following to the end of the power description: "Each time you increase a size category, increase your speed by 10 feet and your reach (the distance within which you may make melee attacks) by 5 feet."

P. 73: ILLUSION

Add "For two extras" at the beginning of the **Damaging** extra.

P. 73: INCORPOREAL

In the last sentence of the first paragraph change "attack (melee attack, ranged attack, Energy Blast, etc.);" to "effect (such as unarmed attacks, iron weapons, a specific type of energy, etc.)"

P. 74: INCORPOREAL

Add the following to the end of **Phase Attack**: "Protection provides no benefit, but a Force Field has its normal effect (reducing the DC of the Fortitude save)."

P. 75: MENTAL BLAST

Change the third sentence to read: "The target's Wisdom bonus rather than Dexterity bonus applies as a dodge bonus to Defense."

P. 75: MENTAL PROTECTION

Delete the words "as well as your saving throw bonus" at the end of the first paragraph. They're redundant and somewhat confusing (since they imply that Penetrating Attack reduces Protection and save bonus at the same time).

P. 76: MIND CONTROL

Change the second sentence of the second example to: "Argent now gets a Will saving throw with a DC of 23 (Ego's original Mind Control check result)." This brings it in line with the power's description.

P. 77: NATURAL WEAPON

Change the range from "Personal" to "Touch." Change the saving throw from "Fortitude" to "Damage."

P. 77: NEUTRALIZE

Change the last two sentences to read: "The target makes a Will saving throw or a check with the affected power rank (whichever has the greater bonus) with a DC equal to the neutralizing character's Neutralize check total. Devices make a power rank check. If the attacker succeeds, the target's powers are neutralized."

P. 77: OBSCURE

Delete the last sentence from the **Selective** extra. Remove “a number of” from the first sentence.

P. 78: PARALYSIS

Change the power’s Duration to Sustained and the name of the extra to Continuous.

P. 79: REGENERATION

Change the second sentence to read: “Spread this recovery out evenly over ten rounds, so at rank 5 you recover one stun and lethal hit every other round and at rank 10 you recover one hit of each type per round.”

P. 81: SHAPESHIFT

Change “three extras” to “five extras” under the **Growth** extra.

P. 81: SHRINKING

Add the following after the second sentence: “Your normal movement rate decreases by 5 ft. per reduction in size category (down to an effective speed of 0 at Infinitesimal size).”

P. 82: SNARE

In the third paragraph, change the damage bonus needed to break a snare automatically to “10 or more than the Snare’s rank.”

P. 85: SUPER-CHARISMA/INTIMIDATING PRESENCE

Add “plus your ranks in Super-Charisma” to end of first sentence. Add “plus your Super-Charisma ranks” after “Charisma bonus” in the next sentence.

P. 88: TELEPORTATION

Delete the “**Effects:** Movement” line.

Change **Extended Teleport** to a power stunt.

P. 89: TIME CONTROL

For **Precognition** and **Postcognition** insert “For two extras...” at the beginning of each description (since both powers have a cost of 3).

P. 91: TRANSFORMATION

Change “three extras” to “five extras” under the **Growth** extra.

P. 92: TUNNELING

Change **Rapid Tunneling** to a power stunt.

P. 98: PERMANENT

Change first sentence to “An effect is made permanent...”

P. 99: STEP 5

Change the first minus sign in the power cost formula to an equals sign, so it reads: “Power cost per rank = 1 + total number of effects,” etc.

P. 104: TRAVEL

Change the example to read as follows:

Example: Marathon has Super-Speed +10, giving him a base speed of 80 feet per round and a sprint speed of more than four thousand times that (327,680 feet per round, about 32,000 mph, or more than forty times the speed of sound!). At this speed, Marathon can circle the Earth in under an hour.

P. 105: TABLE 6-3

Change the column headers to: Load, Max Dex Bonus, Check Penalty, Speed, Sprint

P. 105: TABLE 6-4

Bump the “Str” headers over one column so it reads “Str 10 Heavy Load, Str 15 Heavy Load,” etc.

P. 106: HERO POINTS

Add the word “completely” before the word “ignore” at the end of the first sentence of the **Ignore Fatigue** section.

P. 107: NEW WEAKNESS

Add the following as a subset of the Disabled weakness.

Slow: The character’s movement is hampered due to lame or stubby legs, malfunctioning servos, or zombie muscle tissue. A Disabled—Slow character suffers a –5 penalty on Acrobatics, Balance, Jump, Move Silently, and Ride checks. Reduce his base movement speed by 10 feet.

P. 112: IMPROVISED WEAPONS

Change the second and third sentences to read: “Such objects have a damage bonus equal to the character’s Strength bonus or twice the object’s hardness, whichever is less. If either the attacker’s Strength bonus or the defender’s Protection bonus is greater than the object’s hardness, the object is destroyed by the attack. Weapons that a character has paid for with power points are assumed to be tough enough to withstand the character’s full Strength, and provide their normal damage bonus.”

P. 115: VEHICLE COST

Change the first sentence to read: “To determine a vehicle’s cost in power points, take its ranks of movement, add any armor or other features the vehicle may have, then add any points of hardness it has greater than its highest other rank.”

P. 116: COLLISIONS

Delete the third sentence of the second paragraph.

P. 118: HARDNESS

Change “hardness 20” in the first sentence to “the construct’s power level +5.”

P. 118 CONSTRUCT CHARACTERS

Change the beginning of the second paragraph to read:

Construct characters generally have Immunity super-feats to represent their artificial nature. At a cost of 20 power points, a standard construct has all the Immunities listed on pages 51–52, including Energy (cold and heat). If you wish to give the construct fewer Immunities, reduce the 20-point cost by 2 points for each Immunity the construct lacks.

P. 120: HEADQUARTERS FEATURES

Under **Holding Cells** change the end of the second sentence (after the parenthesis) to: “or their basic hardness is increased by half the base’s power level.”

P. 131: DAMAGE REDUCTION

Change the text under this header to read as follows:

Instead of reducing damage bonus, Protection and similar powers like Force Field provide *damage reduction*, reducing the amount of damage inflicted. Multiply the Protection rank by two and reduce the damage inflicted by each attack on the character by this amount. If the damage is

reduced to 0 or fewer hit points, it has no effect on the character. So a hero with Protection +11 ignores the first 22 points of damage from each attack, and attacks of three or fewer dice don't affect the character at all, except on a critical hit.

Amazing Save (Damage), Super-Constitution, and other bonuses to Damage save do not provide damage reduction. Instead, they increase the character's hit points, adding a number of hit points equal to the power's rank per power level. So a level 10 hero with Super-Constitution +6 and Amazing Save (Damage) +4 has an additional 100 hit points ($6 \times 10 + 4 \times 10 = 100$).

P. 139: DAMAGE TO OBJECTS

The third paragraph should read: "The rules for impossible damage saves (p. 127) do not apply to objects; if an attack has a damage bonus of 10 or more than the object's hardness, the object is automatically broken by the attack."

P. 140: CONDITION SUMMARY

Under **Grappled** remove the words "do not threaten any area and" from the last sentence.

P. 142: TRIP

Add "your size," between "smaller than you" and "or one size category larger" at the end of second sentence.

P. 152: TABLE 9-3

Please delete this table and replace with the the chart reproduced on page 6 of this errata. This chart may be cut out and pasted over the existing chart in the **Mutants & Masterminds** rulebook.

P. 154: SUPPORTING CAST

Under **Police Detective**, change the Alertness feat to Talented (Listen and Spot).

P. 155: SUPPORTING CAST

Under **Police Officer**, change the Alertness feat to Talented (Listen and Spot).

P. 163: THE FIGHT

Under **Teamwork** delete the third sentence. Change the beginning of the fourth sentence to: "Captain Thunder may..."

P. 166: CAPTAIN THUNDER STAT BLOCK

Add the extra Energy Blast to his Energy Control (electricity) power. Change his Animation extra to a power stunt.

P. 168: SIREN STAT BLOCK

Change Elemental Blast to an extra of Element Control (water). Remove Profession (psychologist) from her skill listing, but note that her mortal form (Cassandra Vale) possesses this skill.

P. 172-177: SAMPLE VILLAINS

See the **Revised Sample Villains** file for updates.

OUTLINING THE PLOT

Once you have an idea for a threat in mind, give some thought to how that threat will manifest itself. Outline a series of events that will take place. This will give you the overall plot of your adventure, a sort of roadmap that you can follow while you're running the game to know what is likely to happen next.

For example, you decide that the threat in your adventure involves the crew of an alien ship stranded on Earth. Unable to speak any Earth languages and mistrustful of humans, the aliens must acquire some advanced technology to repair their ship. They begin to track down and steal the things that they need, using their own advanced technology and alien powers to overcome security and the conventional authorities. After they've made four thefts, they make the repairs to their ship and leave for home, smugly satisfied that humanity was no match for them.

Now, that's what would happen if the heroes *weren't* around. Odds are that the players aren't going to just allow the aliens to get away with their crimes. Perhaps the heroes are called in after the first robbery to begin an investigation, or maybe they are called in *during* the first robbery, giving them a chance to encounter the aliens and learn something about them (and probably fight them). The heroes then can begin investigating, trying to piece together who the aliens are, what they want, and what they'll probably do next. They might figure things out and set up a trap at one of the potential targets. They might try to track the aliens back to their hidden ship, or capture one of them for interrogation. The aliens may come back for a captured crewmember, and so forth. Exactly how things end up depends on what the players choose to do.
